Communication Arts

Recognizing that computers are playing a more significant role in people's lives, the English Department has created a variety of composition and ESL classes which use the computer to help students improve their writing skills. Students enrolled in these courses spend one hour a week in the English Computer Lab focusing on a variety of activities including creating and revising work, using various software programs to strengthen writing skills, doing research on the Internet, etc. Time spent in the computer lab will help students develop the skills they need to succeed in college and the workplace.

For the creative person who is inside you, Cuyamaca College is offering a class in Beginning Creative Writing. Although writing can equal hard work, when we produce our own poems, stories, plays, or nonfiction about subjects that are really important to us, the work becomes meaningful and enjoyable, oftentimes a labor of love.

Don't just wish you were a poet, an author, or a dramatist. Start now on the road to successful writing. For more information about **English 126**, a three-unit transferable course, contact Kathy McWilliams (619) 660-4366.

If English isn't your first language, ESL classes spell success.

Do you want to improve your reading, writing, listening and speaking skills? Do you want a college degree or certificate?

Do you need help with job skills? Well, our English as a Second Language program is designed just for you. ESL classes help you read faster and remember more. You will learn to speak and write more clearly. You will even write a resume and practice for a job interview. Classes are grouped into four levels to match your current English skills.

Attention Cuyamaca College Math Students!

A new one unit math course will be offered this spring that will teach you how to use your Graphing Calculator! This short-term course (**Math 098**) will be offered on Mondays from 1:00-2:50pm, January 24 - March 18; and on Tuesdays from 2:00-3:50pm, March 18-May 20. This course is ideal for students enrolled in Intermediate Algebra, Statistics, Trigonometry, and the Calculus courses! *Don't miss it!*

Note: The recommended preparation for this course is Math 090.

“Never mind about your difficulties with mathematics. Mine are far greater.”

- Albert Einstein

Unfortunately Einstein did not take math classes at Cuyamaca College. If he had, he would not have been so quotable. Cuyamaca's Math Department strives to make mathematical understanding accessible to all students including those who have experienced difficulties in the past. One of our goals is to help you be successful in your math class. And we'll

do almost anything to reach that goal, including using a computer lab to assist you in learning mathematics. Even if you have never touched a keyboard before, you will discover that the interactive software in our math lab makes learning math fun and simple.
